Village President and Board of Trustees
Standard, Illinois 61363

Gentlemen:

The refuse disposal site which you previously operated southwest of Standard was inspected on November 15, 1967, by Sanitary Inspector Lawrence Marques of our Northwest Regional Office in Rock Island. Mrs. Pauline Mix, Village Clerk, was contacted at the time of the inspection.

Based on our representative's report, we conclude that the old site has been closed satisfactorily and covered fairly satisfactorily. The site is covered well except for some refuse on the face (slope) of the fill which consists mostly of rolls of wire and fencing and old appliances. You are urged to have these covered as soon as possible. As an alternative these items could be removed and hauled to a sanitary landfill.

Your site will be reinspected in about 30 days. In the meantime, if we can be of any assistance to you, please contact this office or our Regional Office at 121 - 4th Avenue, Rock Island.

Very truly yours,

ILLINOIS DEPARTMENT OF PUBLIC HEALTH
